

Maintenance advice

- Do wash your vehicle occasionally. The water repellent property of Toyota ProTect creates a self-cleaning surface which means that less cleaning is required. Use vehicle wash concentrate with either a sponge or cloth, then rinse with clean water. Dry with a synthetic cloth or leather chamois.
- Do use a hand wash, jet wash or a mechanical car wash on regular setting if you wish.
- Do not wax or polish on top of the Toyota ProTect coating.
- Do not apply any kind of conservers or wax top-ups.
- In the event of collision damage and repair:
 - Consult Dickran Ouzounian & Co. Ltd.
 - The Toyota ProTect coating can be restored
- Toyota ProTect provides unrivalled protection against the damaging initial effects of bird lime and tree sap. However, it is strongly recommended that such deposits are removed immediately, as neither are covered under this warranty.

Toyota ProTect

3-year exterior warranty booklet

Protecting your vehicle and your warranty too

Thank you for choosing to protect your vehicle with Toyota ProTect. The treated exterior paintwork of your vehicle is now guaranteed for three years against weather-induced fading, oxidation and a range of other environmental factors.

This booklet is the official warranty record for your vehicle's Toyota ProTect paintwork treatment.

For the warranty to remain valid you must observe the maintenance advice, and the other Warranty terms and conditions.

Warranty terms and conditions

The treated exterior paintwork of your vehicle is now guaranteed for a full three years. In the event of loss of finish, the vehicle owner must notify Dickran Ouzounian & Co. Ltd.

In order for the warranty to remain valid, the Toyota ProTect treatment of your car must be inspected annually by a Toyota Authorized Retailer. The inspection is free of charge and can be done during your annual car maintenance at one of our Toyota workshops.

Exclusions

- Collision damage, vandalism, stone chips, fire, rust, owner negligence.
- Vehicle modifications carried out after the application of Toyota ProTect.
- Damage resulting from abrasive polishes, acid wheel cleaners or cutting agents.
- Industrial fallout, acid rain, bird lime, tree sap, brake fluid, battery acid.

Claims

In the event of a loss of finish the vehicle owner must notify Dickran Ouzounian & Co. Ltd. In the event that a failure of exterior protection under the 3-year warranty has occurred, Dickran Ouzounian & Co. Ltd will arrange for re-application to be carried out.

When claiming through an insurance company for Toyota ProTect rectification following collision damage, the cost must be recovered directly from the relevant insurance company.
