BATTERY AND CHARGING

CHARGING 'PLUG AND PLAY'

Charging the RAV4 PHEV is easy and safe, with multiple charging options to meet customer needs in every situation.

TOYOTA HOMECHARGE **EVERYDAY**

A wall-box can be installed at customers' homes or offices for efficient charging:

Home/Public - 2 hours at 32A with 11kW OBC

HOUSEHOLD PLUG **IF NECESSARY**

Charging from a home socket is possible but takes considerably longer, up to 6.5 hours at 10A.

RANGE

EV BATTERY RANGE Up to 137 km *

*Tested according to WLTP Regulations. EV Range varies according to environmental and internal factors

RAV4 PLUG-IN HYBRID KEY ACCESSORIES

RAV4 PHEV CARE PACK

BOOT LINER

Tailored to the boot of your vehicle and provides protection against dirt and spills.

FRONT & REAR MUD GUARDS

Designed to minimise water, mud and stones spraying onto your car's body.

LOCK NUTS

Replacing one nut on each wheel with a Toyota hardened steel wheel lock will maximise security for your valuable alloys.

RAV4 PHEV STYLE PACK

REAR CHROME GARNISH

Add a touch of class along with the lower edge of your vehicle's boot with a premium chrome boot garnish.

CHROME SIDE SILLS

These sit beautifully, contoured along the sides of your vehicle.

ALUMINIUM SCUFF PLATES

Genuine scuff plates on the door sills create an immediate impression of style while also serving a very practical purpose of protecting the sill paintwork.

SIDE STEP

The side step gives you easy access to the roof accessories while enhancing the rugged appeal of your car.

DISCOVER PLUG-IN HYBRID

Plug-in Hybrids combine electric power and a petrol engine in one advanced powertrain. With a bigger battery plus the option to charge, Plug-in Hybrids offer increased pure-electric driving capability in EV mode than regular hybrids. The petrol engine also makes them ideal for longer trips.

Refuel as usual

Refuelling your Plug-in Hybrid is easy. Top up with petrol as normal at filling stations to drive the combustion engine.

Easy charging

A wallbox will help deliver fast and hassle-free charging at home. You can also charge your Toyota Plug-in Hybrid at home from a standard power supply. And on the move you can use the public charging network.

Lower emissions

With the ability to travel further than Hybrids on electric power alone, Toyota's Plug-in Hybrid cars can cover local trips in EV mode, using no fuel and with no tailpipe emissions. Emissions may be associated with other aspects of the car's life cycle, such as tyre and brake wear.

ALWAYS ON THE GO, ALWAYS CONNECTED

The intelligent cockpit keeps everything in sync between your vehicle and smartphone. The MyToyota App, designed to enhance the driving experience, opens up a world of connectivity.

Depending on the model, the MyToyota App provides a suite of services that enable you to heat and cool your car using your smartphone, check your car's battery level, receive real-time updates, view trip history, and access to coaching features aimed at optimising your driving performance, ensuring you get the most from your Toyota.

TOYOTA SAFETY SENSE

Toyota Safety Sense features a set of five active technologies with the ultimate goal being to reduce traffic accidents as much as possible, helping to create a safer driving environment for everyone, while supporting you in your daily journey.

Pre-Collision System

Recognises a potential head-on impact and a wide range of objects in the car's path, including pedestrians, cyclists and motorcycles.

Lane Departure Alert

The lane-centring function will alert the driver if the vehicle starts to deviate from its lane.

Automatic High Beam

Designed to optimise visibility during night driving by automatically switching between high and low beam for oncoming vehicles and leading traffic.

Road Sign Assist

Monitors the road signs ahead, displaying useful information such as the current speed limit.

Adaptive Cruise Control

Drivers can choose their cruising speed at a pre-set distance from the vehicle in front. If this distance falls, the system will reduce its speed.
